### "Say Goodbye"

So now we'll go onward to where life will lead us  
We weren't the best of friends  
But at this moment I feel much closer to you  
It makes me realize to make the most of my time  
And spend some with you.  
So say goodbye we have to try to find  
Someplace to stay to settle down  
Without a frown retain what makes us complete  
We'll never see what use to be  
The basis of our lives the rembers glow  
Drifting slow to nothingness...  
So dry out your eyes try not to stare  
A path is waiting it is right there  
Nothing is in sight horizons  
Not bright imagination is is failing me again  
The trail disappears on account of my fear  
So I'll write it once again.
