Wake up my love  
So I can feel your eyes on me  
Say something sweet  
Refresh me with your melody  
That precious smile  
Warms me until eternity  
The longest mile  
Could not disrupt my harmony

So listen in  
As you gently lay  
Subconsciously  
Obey  
This I say

Wake up my love  
So I can feel your eyes on me  
Say something sweet  
Refresh me with your melody  
That precious smile  
Warms me until eternity  
The longest mile  
Could not disrupt my perfect harmony
