Lately I
Wasting all my time on you
Sadly I think you feel the same
I made this mess of confusion
From wanting all I couldn
When I was still with you

Suddenly I
That I can make everything alright

No, its just day dreams of good times
That we will not ever have
All that we
I
So I can finally quit on you
And you can learn a life without me

Suddenly I
That I can make everything alright

All that I
You stay unphased by me
All that I remain falls along the way
You stay unphased by me

And you move on in ways that
I can only explain to you
And you let go in ways I hate
So I
Happiness with you around
Then you can feel the silence I leave

I
I can shake the thoughts that own me
All that I
Feels so far away

Chorus
