Falling further from the start  
I cannot break your heart  
Cause I

Driving vans, impressing friends  
Who profit religion  
That

When you were young  
And so in love with me carelessly

I can see it now, you  
The life that  
Is not the life you

Failing to remain in place  
That time I went away  
You could not deal, you sought a better way

Finding lust in my old friends  
And love in older men  
You changed for worse  
You changed in everyway

From when you were young  
And so in love with me carelessly

Chorus

There  
For you to embrace them and I can bet  
With me you might but I know you won
