### "It's Slavery"

Visit "[It's Slavery](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You say the "big dog's gotta eat"  
Then you feed another misery  
I hope you feel very uncomfortable  
The light's on and it's time the roaches run

Is that what you want?  
Right here just like that  
I'll give you what you want  
'Cause if I don't I'll be beaten

It's slavery in the 21st century  
Are you a part of the cure or the disease?  
It's slavery! Everyone should be free  
But you don't care about her story

All the while that you dehumanize  
It's your soul that no longer shines  
There's no love in any part of this  
No love, all this is counterfeit

You see me smile  
Just like the other ones  
But I don't want to be here  
I want to go home but I can't  
'Cause you're next

It's slavery in the 21st century  
Are you a part of the cure or the disease?  
It's slavery! She might be over 18  
But to meet high demand she was picked green

It's slavery in the 21st century  
Are you a part of the cure or the disease?  
It's slavery! Everyone should be free  
But you don't care about her story
