"Jubilee"

I step inside and recognize
Your face from my dreams of home

Long ago I felt this love
And now I have a second chance
And I'm taking it

Jubilee has come to me and brought me back to life
Jubilee! I am free, my future is bright

I breathe in peace and exhale songs
of new found love in a place I belong

Long ago I felt this way
And now I have a chance to stay
I'm going all the way in

Jubilee has come to me and brought me back to life
Jubilee! I am free, my future is bright

What a breakthrough
Stumbling into you

Long ago I heard this song
And now you'll hear me sing along
Turn it up. Turn it all the way up.

Jubilee has come to me and brought me back to life
Jubilee! I am free, my future is bright
