It's nice to be at peace with You
It's fine with me to be close to You

My eyes are fixed on You, oh Lord
I see You, I see You
My hands are clean, my heart is pure
You washed me, thank You

I used to be attracted to
The things of this world
I used to be at war with You
And now I'm fighting on Your side

It's nice to be at peace with You
It's fine with me, yeah, it's alright to be close to You

My love for You is unashamed
I love You, I love You
My guilt is gone, I'm free to fly
Inside, inside

I used to be entangled by
The things of this world
And I used to seem so far from You
And now I feel You by my side

It's nice to be at peace with You
It's fine with me, yeah it's alright to be close to You
It's nice to be at peace with You
It's fine with me, yeah it's alright to be close to You

It's nice to be at peace with You
It's fine with me to be close to You

At peace with You
At peace with You
