So here I am thirty minutes late to the movie  
The action is already well under way  
So how am I supposed to tell what's happening here  
I'd like to know what's really going on  
I haven't been here very long  
Easily I could get this story all wrong...You know it's a  
ride  
You know it's a ride  
When you can't find that exit sign  
You know it's a ride  
You know it's a ride  
When you're suprised  
It didn't take me that much time to find out  
The Romance is more than just an aside  
It's in the lines  
And in our eyes I feel it in the air  
I'm haunted by the hope of something more  
I haven't been here very long  
Easily I ride. You know it's a ride.  
When you're suprised  
You know it's a ride, You know it's a ride  
Cause your heart beats wild  
You know it's a ride  
You know it's a ride  
With desire  
You know it's a ride, You know it's the ride  
That we're born inside  
You know it's a ride, You know it's a ride  
COME ON LET'S RIDE
