"Somewhere In Time"

Somewhere in time it was decided
That you and I would spend forever hand in hand
The clocks looked down and we were chosen
I'll soon be there, we have a lifetime to share

Somewhere in time, words without meaning
They don't begin to say what I want you to hear
Our time is not, not some tomorrow
This time must end, this dream will not drift away

Somewhere in time, we'll not forget
We'll not forget I'll count the seconds until then
Somewhere in time, it was decided
Our time is now

Somewhere in time, we'll not forget
We'll not forget I'll count the seconds until then
Somewhere in time, it was decided
Our time is now
Our time is now
Our time is now
