Yeah worth the two... wack was the shooter so we cut it
to the...
Gang bang in... living like it was new ports
Who ever thought that it was real like petroleum
And that b b connect got his... to them holy man
Just had a daughter almost named...
If I'm racing right the baby she can take over...
Spitely in new war and shooting documentaries
And game still the... off the documentary
Take em to the cemetery I mean the cemetery
Where everybody rocks and refrigerator...
And every low fuck up...
