Leather gloves with the tips to toss

Street smarts is crucial for young niggaz in the CX-3
Drop Jag with the price to pay

Got the feds lookin' twice this way
'Cause we shuffle the P's in different places that the

When you turn 15 get your stainless steel

Whole squad been trained to kill, we official
And switch to get rich now we after the meals
Hard times got cakes for 3
When it's havin' a bundle we break bread for the safe

I got guns, guns, guns, guns, guns all over the club
We in V.I.P. strapped, security know that
25 deep, guns up under the throwback
That new R. Kelly shit sound like Bobby Womack

Black Wall Street in HURR, nigga where the hoes at
We got sour diesel, three cases of Hypnotiq
And more guns than the Nickerson Projects
Niggaz don't want beef with me
'Cause they know they gotta pay for talkin' shit but the
sheets is free

And ain't nuttin' to shoot the club up
You don't want drama in this motherfucker throw them
dubs up
Jacob got the wrists on chill
And N.W.A. chain glow like the memory of Ill Will
Relax your mind and let your drawers feel free
You're now rollin' to the sound of the Game and JT

But you can't come with the rest of her friends
Cause you know I'm a boss and won't play cause she
short on my ends
Make rounds from the back of the Benz
With the [unverified] that kid with frog eyes with the
corners to bend

The things we go through I'm beatin' ya brains
Got some homies next do' and I picked up the Game
While they knockin' on the do' I get deep in ya dame
Gotta charge you a G just for speakin' my name

I'm not eatin' your chocha or payin' for the coach ma
I'm a pimp like 50, the nigga to leave you broke ma
6 in the mornin', you stretchin' on the sofa
Singin', "Ain't No Nigga" like Foxy Brown and Hova

I fuck 'em dogstyle with Billys and Novas

With or without chaffeurs, I make 'em fuck the both of
us
You know what it is, the gangster's back
And I keep my banger at where my chain hang at
I'm ghetto
