Looking for a place to park
I think I need a fix
Anytime when it's after dark
To get my female kicks
I don't go to Frisco
An' I wont go to the beach
There's just one place I know
Where the girls just can't be beat
Carson girls, they're the cutest in the land
Carson girls, I wanna take one by the hand

One's name is DD
And the other she plays bass
All their friends now are cuter still
I'd like to kiss them in the face
I don't care about one-night stands
Or pick-ups in a bar
All I want's the girl I love
On the back seat of my car
Carson girls, they're the cutest in the land
Carson girls, I wanna take one by the hand

Rock

Scrunch back, now

So if you're thinking about moving to west
Forget about West L.A.
Forget about Torrance now, baby
'Coz Carson girls are A-OK
They don't care about breaking hearts
And they don't leave guys in tears
And when they love they never stop
At least that's what I hear
Carson girls, they're the cutest in the land
Carson girls, I wanna take one by the hand
Carson girls, they're the cutest in the land
Carson girls, I wanna take one by the hand
