"I Lost"

I lost my mind & now my heads a tent
And I spend the time wondering where it went

I want it back - cause I got to live
This twist of fate I cannot forgive

I met a man not too long ago
And what he said to me I didn't want to know

I saw his bag & when he turned away
I reached inside, & then I lost my mind!

It's gone away, so far away
Yeah

I'm looking back, there's nothing left
In my head & I can't forget

I know it well, there's no way out
I lost- I lost- I lost my mind!
He's so unkind

It's gone- gone- gone away
It's gone gone gone away

Yeah I lost my mind
