When I ask questions, don't tell no lies
Just look me in the eye
Don't say, no and don't say, maybe
And don't you ask me why

Just say yeah, yes
Yes, is what to say
Just say, yeah, yes
And we'll go along away, ooh baby now

When you need me, well, I'll come running
And that's the way to be
Just call on me if you want some loving
I'll give it all for free

I'll say yeah, yes
Yes, is what to say
I'll say, yeah, yes
And we'll go along away, ooh baby now

Well, we don't need no shove
'Cause I just fall in love with you, child
Well, we don't need no push
'Cause we just dig the rush with you

When I ask questions, don't tell no lies
Just look me in the eye
Don't say, no, and don't say, maybe
And don't you ask me why

Just say yeah, yes
[Incomprehensible] what to say
Just say, yeah, yes
And we'll go along away, ooh baby now
It's far long, very long
Need to call you home
