

Ten Years After "Portable People"

Visit "[Portable People](#)" on MotoLyrics.com

See them at the airport with their cases in their hand
Got a ten day package in another land
They're the jet age gypsies with a super-sonic sound
They're the portable people, and they take themselves
around

Portable people, flyin' in the air
Portable people, goin' everywhere
Por....ta....ble - Peo....ple!

See them at the window with a panoramic view
It's the only time they've noticed that the sky is colored
blue
One will have a cloak and a pair of wooden clogs
He liked the avocado, but he didn't like the vase

Portable people, flyin' in the air
Portable people, goin' everywhere
Por....ta....ble - Peo....ple!
