The world is fucking turning to shit  
The Earth don't stand a chance  
Hurricane Typhoon will destroy the city  
We got to clean up the skies and recycle  
We got to stop the over-population

But most important of all  
We got to build a Deth Starr

Deth Starr it's a fucking ship  
It's a son of a bitch, y'all  
And we're building it, it's gonna  
Take us up into the sky  
We don't need the Earth  
We gonna fucking fly sky high

Deth Starr it's a son of a bitch, y'all  
It's gonna take us into Outer Space  
Get your shit together mother fucker  
Gonna start a new  
Human race in the sky  
In the sky

You know we will be rocking on the Deth Starr  
Total eclipse of the sky

Everybody going insane  
Futuristic video game  
Everybody have a good time  
Synthesizing water to wine

But, hoooooow-ow  
How?

I hired a nerd  
I fucking paid a nerd  
It is absurd but  
I paid him to build it, cause  
I don't know how to build that shit  
That's right

There's a vacuum in space

It fuckin' suck your face  
Day or night  
Got to make it airtight  
You gotta build that shit  
Make it out-of-sight!

The fuckin' Deth Starr  
You know we will be rocking on  
The Deth Starr  
It will be democratic on  
The Deth Starr  
There will be lots of boneing  
On the Starr

Having lots of sex with my friends  
Dipping candle into rear-ends  
Boneing on a virtual plane  
Fucking 'til I'm fucking insane  
Yeaow!

We got to build more Starrs  
We got to spread out far  
Seven strong  
We gots to bang a gong  
But baby hold up  
There's something wrong

What's that?  
It's a fucking squid  
An evil alien squid  
Join up ships  
We got to let it rips  
We gotta blow that bitch to  
Another Dimension

Deth Starr  
We got to build a hundred of 'em  
The Deth Starr  
We spread across the galaxy  
The Deth Starr  
You know we will be rocking on  
The Starr

Deth Starr  
We gotta build a million of em  
Deth Starr  
We're spread across the galaxy  
Deth Starr  
We must divide and conquer on  
The Sta-aa-aarr

DETH STARR!

So we searched the galaxy  
For other forms of life  
Got to drink their nutrients  
To sustain our quality of life  
So we scoop up the creatures  
Then we put them in a geodescent dome  
But the question arises my friend  
What have we become?

DETH STARR!
