Since the beginning of time  
There had to be a man with a plan  
To push man, forward  
There was a caveman who, invented wheels  
And with those wheels he pushed man forward

Someone had to come up with a new concept for life  
Had to push the mighty rock upon the mountain top

Got to work it out  
Got to think outside the box  
You got to think outside the bun  
If you want to be the magic one  
Who will lead the trail, blaze the rail  
Be the one that you will know must me  
Genius

Everybody looks to the hero to lead the way, to change  
our way of life  
To show us something that is meaningful, yeah  
When you look to the hero you must seize the day and  
shine a ray of light  
Gotta shine it on something that is beautiful, yeah  
With the bravery to see, a new form of arts  
A blazing of our consciousness, we're talking quantum  
leap

When you think outside the bun,  
It's scary out there  
There's also lots of stinky poo  
But sometimes when you go outside of your comfort  
zone  
You might find something brand new  
To help the humans leap  
Forward, do a simple leap  
Never be they same, they leap  
Across the f\*cking annals of time  
Quantum leap, leap

Einstein, Shakespeare, Leonard Nimoy, Doctor Drew  
Bell Biv DeVoe, François Truffaut, Moses, Tenacious D

That's a list of the people who have made the quantum  
leap  
It gets pretty scary out there because they got to know  
themselves, yeah  
When you look at the people who have made the  
quantum leap  
You feel like a turd cause you haven't accomplished  
anything yourselves, no  
With the bravery to see, a new form of arts  
A blazing of our consciousness,  
we're talking quantum leap, leap, leap, leap  
Sleep
