

Gamits, The "Sorry Song"

Visit "[Sorry Song](#)" on MotoLyrics.com

I've been waiting up for you so long.

I can't stand the fact that you're so far away.

Something's got to change or I'll go out of my mind.

Don't think I can live without you.

I just got your letter yesterday.

I stayed up reading it 'til oh so late.

I'm a bigger idiot than anyone I know. I'm a loser whoa!

I'm sorry. I'm waiting. I wont mess up again and I'll find
you wherever

you are for now and ever.

The bus stop or museum, I'll hunt you down to be in
your arms.

Now tell me that you'll never leave.

Photographs and folded pages. Memorizing words and
phrases.

I can't get enough of you. Have you had enough of me?
