Looking through old photographs  
Something's just not right  
The past it seems keeps calling you  
Though it's out of sight

Pictures of your younger days  
Places far from here  
Faces of your long lost friends  
Suddenly appear

They look at you and smile

Come see me  
Come see me  
Any old time you want

Memories come and memories go  
Don't mean much to me  
Don't you worry they're all right here  
For all the world to see

Preserved here for all time

Come see me  
Come see me  
Any old time you want

And tell the world how you feel

Don't you be wasting your time  
Don't you be wasting your time  
Don't you be wasting your time  
Don't you be wasting your time in here
