I can see you in the doorway
I know you've been looking for me
It's the same old interrogation
And I've got to find a way out
Got to get out of here

I can hear you in the hallway
You've got a belly full of beer
It's the same old observation
And I've got to find a way out
Got to get out of here

I can hear what you're saying
But just keep on praying
It doesn't matter to me
I can hear your fancy talking
No it doesn't matter to me

I can see you in the driveway
It looks like you've been out of control
It's the same old violation
And I've got to find a way out
Got to get out of here

I can hear what you're saying
But just keep on praying
It doesn't matter to me
And I hear your fancy talking
But just keep on walking
It doesn't matter to me
And you say your heart is breaking
But your crap I'm sure not taking
It doesn't matter to me
And I know what you're doing
And it's me you're sure not fooling
It doesn't matter to me
