I hear the fore winds howling
They'll come to carry me away

I sense the night is falling
The stars will guide me on my way

Because I feel fine

I see a new dawn breaking
Won't be the last one that I see
No it won't be

Because I feel fine

Easy come and easy go
Let it flow all in stride
Up and down, look all around
Life is short but a hell of a ride

Easy come and easy go
Let it flow all in stride
Up and down, look all around
Life is short let's go for a ride!
