"No Drugs No Alcohol"

We must be ready
we must watch out to defend ourselves
the first thing to do
is to detoxify ourselves
we've been under pressure for so long
we have borne the burden of,
of all kinds of addiction

But now we'll succeed,
we have to be strong
that's why I say
No drugs no Alcohol

No drug can solve your problems
but it can make some Mafia boss rich
you can't rebel against it
and play their game
change your style
you're bound to win,
you can make it if you want.

But now we'll succeed,
we have to be strong
that's why I say
No drugs no Alcohol

we must get out their control
we must be able to decide our life
if we have our back to the wall
if means we can get everything
the only solution is to fight.

But now we'll succeed,
we have to be strong
that's why I say
No drugs no Alcohol
