"Solidarity"

From the mines and the cornfield
from the factories
they are calling, calling to us
we can hear them calling for help.

When I eat, I feel you hunger
When I'm warm I feel your cold,
When you groan your torture hurts me
I'm with you
SOLIDARITY

People held in State prison
tortured in their cells,
our fist will shatter, shatter the jaws
of dictators whose fall must come.

When I eat, I feel you hunger
When I'm warm I feel your cold,
When you groan your torture hurts me
I'm with you
SOLIDARITY

Support all insurrections
the empire is no more
give it one more, one more last push
if you can dream you can win.

When I eat, I feel you hunger
When I'm warm I feel your cold,
When you groan your torture hurts me
I'm with you
SOLIDARITY
