"Don't Go"

Eyes burn in your dream
Don't sleep if you still believe
That this is just the beginning of history repeating

Sweep another wave inside
To drown the world that can't be captured
Sometimes feels like we've been staring
Through the wrong side of the mirror

Don't go away
Don't leave me here
All alone now
Don't go away

Sounds of memories found
Surround the space that pulls us
Down we go before we know what made us lose control

Coasting all the way
Don't go
Don't go away
Don't you leave me here on my own
Don't go away
