#### Verse 1

I don't wanna hear it, cause I've heard enough  
You sold one night, for the price of our love  
I hope He was worth it cause you burned our love down  
To HELL with forgiveness, I'm so Angry Right Now

#### Chorus

Angry Right Now, that I was fool  
And that I kissed the lips of a liar like you  
Confused by these tears falling down to the ground  
I hate that I miss you, I'm so Angry Right Now

#### Verse 2

We had a future, and we had past  
You answered questions I never thought I would ask  
What's done is done, now you're gonna find out  
Just how much you hurt me, I'm so Angry Right Now

#### Chorus 2.x's
