### Verse 1

You walk into the room, time stops every time I see you  
You don't know me, and I don't even know you but I  
want too  
You could be all I've waited for and You could break  
my heart

### Chorus

And I, I'm so scared to do this again  
And I, I'm just not sure that I can  
Feels like I'm falling for, even if I could,  
Keep you out of my heart  
I can't get you Out of My Head

### Verse 2

I see you lookin at me, I wonder what you're really  
thinking  
If, you could just walk through my heart you'd know  
exactly what I feeling  
I could be all you've waited for, and I could break your  
heart

### Chorus 1x

### Bridge

All I can do, Is think of you, all of the time  
Should I play it cool, or lay it all on the line

### Chorus 2 x's
