Verse 1

Couldn't leave well enough alone, or leave the world
unbroken
Couldn't keep a good thing from going wrong, leave
the hurt unopened
Everything's heavy lately it's all come undone

Chorus

Talkin' Bout our Love and all I really feel about you
babe
It's tough, you know how I feel
I keep thinking; Did we fight, Did we try, Was it worth
the last goodbye?
Man it's rough, giving up, and wondering did we do
enough
Talkin Bout Our Love

Verse 2

Everyday I set out to be, to be a little bit stronger
And every night I come home to see, the reminder
All that I've done is wasted and everything is gone

Chorus 1x

Bridge

I never thought it'd be this hard, your memory's
made it's mark

Chorus 1x
