Visit "[Data Control](#)" on MotoLyrics.com

A nine digit number
For every living soul
That is all they talk about
At Data Control
They know everything about you
Keeping secrets is too hard
Your life is all recorded for you
In holes punched in computer cards

Data Control (digital readout)
Data Control (perforated feedout)
Data Control (microfilm files)
Data Control (1984 style)

A multinational corporation
A stockholder's dream
A nightmare of diversity
A defense system so supreme
Too technical to talk about
Too complex for layman's brains
It's enough to make you paranoid
Or drive you crazy losers sane
