Take a look around this bar  
take a look around this place  
take a look around this hall  
Think it's a fucking gym?  
Kick and punch and kick and punch and  
kick and punch and kick and punch  
Who's your friend? Who's your friend?  
Who's your friend? Who's your friend?  
Your enemy.

Take a look around this bar  
take a look around this place  
take a look right in the mirror  
What are you a fucking queer?  
Kick and punch and kick and punch and  
kick and punch and kick and punch  
Who's your friend? Where's your friend?  
He's over there, he's gonna fuck it up  
for everybody

Kick and punch and kick and punch and  
kick and punch and kick and punch  
Who's you friend? Who's your friend?  
Where's your friend? I guess he'd rather  
be punch drunk
