Iâ€™m waking up again  
In this land of shadows  
My eyes are growing dim  
Lured toward the gallows  
So light my soul ablaze  
A field on fire  
Take me to that place  
Of one desire

O tempted heart, come alive  
I feel you burning inside  
Weary soul, lift your eyes  
To a city where life will never die

But the dark and immediate  
They come so easy  
So I keep on giving in  
To the things that kill me

O tempted heart, come alive  
I feel you burning inside  
Weary soul, lift your eyes  
To a city where life will never die  
This rusted world canâ€™t satisfy  
Thereâ€™s nothing here that will survive  
The night will end  
The sun will rise  
On a city where life will never die

Dark eyes, look up  
See a kingdom come  
Burn within our lungs  
Further up, further on  
Higher  
Take me higher

O tempted heart, come alive  
I feel you burning inside  
Weary soul, lift up your eyes  
To a city where life will never die  
â€™Cause this rusted world canâ€™t satisfy

There's nothing here that will survive  
The night will end  
The sun will rise  
On a city where life will never die

Oh the city, the city will never die, no
