"Side By Side"

Visit "[Side By Side](#)" on MotoLyrics.com

My hands are shaking, my face is numb
We've be walking for days, my feet are giving up
After all we came this far
Whats the cost of giving up?

Side by side you we're out numbered
side by side we'll make it through the night ohhh

My days are getting shorter, we can make it through if
you want to
After all, we came this far
whats the cost of giving up?

Side by side we're out numbered
side by side we'll make it through the night ohhh.

Side by side we're out numbered
Side by side we'll make it through the night

Side by side you and I
Side by side well make it through the night
