### "Fingers Towards The Sky"

Looks like youre walking down this road tonight,  
The same road you've been walking down for so long...  
Yet it's the only road that ever seems right,  
The only rush that lets you know you're still alive.

So what are we waiting for...  
What are we waiting for...

Let's dream on  
Point our fingers at the sky,  
Lets dream on  
just to keep our faith alive, yea...

Dreams will tear you apart just to measure how strong  
we can be,  
so whats the point of holding on if we won't fight back?  
And we'll watch the hours go by as our days turn to  
nights,  
Regretting never having used them wisely.

So what are we waiting for...  
What are we waiting for...

Let's dream on  
Point our fingers at the sky,  
Lets dream on  
just to keep our faith alive, yea...

Lets dream on  
Point our fingers at the sky  
Lets dream on  
just to keep our faith alive...  
(repeat)
