Folks don't know it but we left around half past ten
Both drivin' to a place where we've never been
It shouldn't take us but an hour to get to the line
And in between there is something runnin' 'cross my
mind

Am I wrong, Am I right
Takin' this girl with me across the line tonight
Am I wrong, Am I right
Runnin' from the family
Runnin' from the upcoming fight

They said we're young we can wait till we both grow old
But that's a sayin' for the people who don't really know
We talked about it and we both were quick to agree
That they can have their opinion but it ain't what the
world should be

Am I wrong, Am I right
Takin' this girl with me across the line tonight
Am I wrong, Am I right
Runnin' from the family
Runnin' from the upcoming fight

I should remind you this all happened a long time ago
We made the line just in time before the highway patrol
And here is something for the people who thought that
they knew
We've had a lifetime of love, a kid and another one's
due

So was I wrong, No I was right
Takin' that girl with me across the line that night
Was I wrong, No I was right
Runnin' from the family lookin' back in hindsight
Was I wrong, No I was right
Cuz she's a good woman yeah
The love o' my life
-My wife
