Will you follow me now
From this old town I'll carry you home, carry you home
In your life, there's something I don't know
We all love, love you so

When you're lost, you can take my hand
We can find your promised land

Free like summer kisses, waterfalls and wishes
Beauty all around me, sunlight, sunlight
Free like summer kisses, waterfalls and wishes
Beauty all around me, sunlight, sunlight

Now you're miles away, hey, hey
And this whole place is dragging me down, dragging
me down
In your light, there's nothing I can show
You know I love, I love you so

When you're lost, you can take my hand
We can find our promised land

Free like summer kisses, waterfalls and wishes
Beauty all around me, sunlight, sunlight
Free like summer kisses, waterfalls and wishes
Beauty all around me, sunlight, sunlight

This heartache you're feeling, it's only love can heal it
You want it, you got it, sunlight sunlight
Free like summer kisses, waterfalls and wishes
Beauty all around me, sunlight, sunlight

There's beauty all around me, sunlight, sunlight
