Everybody get down don't you turn around put your hands up and shut up this gun's a loaded one...
No one listened to me so now I'm ready to be someone ye'll remember for the rest of your life I tell ya...

(Chorus)

I can't take it..
I can't shake it..
I can't make this contradiction in life..
It make me crazy when i see it on the T.V..
It's in my head how can I survive....
...this contradiction in life...

I have a gun but I know you all have some why don't we just shoot each other make the evening screen..
Bias my mind and rape my gender make me so slender that I can't eat..
No child abuse kill the baby in the womb take all of the murderers and set them free..
Rob from the poor and give to the rich my life is a bitch now watch me bleed...I tell ya...

(chorus)

I wanna blow all the morning talk shows the pimps and the hoes you let them be..
see me fall down step over my body ain't nobody wants me so piss on me..
Use it abuse it I know you will accuse it after you're done just cut it off..
Give me some love make me trust someone take a hand full of shit and dump on me.....

I can't take it ...
I can't shake it
I can't make this contradiction in life..
It make me crazy when i see it on the T.V....
It's in my head how can I survive....
