Get up
Get up
And take my hand girl
Hurry up and take this chance

Your feeling
I'm feeling
We're feeling each other grow
There's not a moment to waste
So jump in the car
So we can go
Anywhere your imagination leads to

Inhale
Exhale
Slow down, take one step at a time
Don't worry
We'll be okay
We got all the time in the world
Just look me in the eyes
And open your ears
And I'll swear I'll tell you something
That you'd like to hear

Get up
Get up
And take my hand girl
Hurry up and take this chance
Your feeling
I'm feeling
We're feeling each other grow
There's not a moment to waste
So jump in the car
So we can go
Anywhere your imagination leads to

Oh, oh, oh,
Don't roll down your window
It's getting pretty hot in here
If you know what I mean
STOP!

I'd do anything
Just to see that smile
And you'd do anything
To put forever in a while

Get up
Get up
And take my hand girl
Hurry up and take this chance
Your feeling
I'm feeling
We're feeling each other grow
There's not a moment to waste
So jump in the car
So we can go anywhere
Your imagination leads to

Get up
Get up
And take my han girl
Get up
Get up
And take this chance (x4)
