Nick Swisher
"Starry Skies Starry Eyes"

Your my sunshine;
First thing I see when I wake.
Your my moonlight;
Rest assured the last thought I take.
Your bigger than the universe,
And brighter than the sun.
More than the stars,
But your my only one.
It takes me past the starry skies,
To look you in your starry eyes.

Look at her,
In her sparkling red dress.
Reflect the strobe lights,
That seem to transgress.
The dim lights in such a dark place,
Oh girl you make my heart race.
With things unseen, mysterious.
I'm not kidding, I'm serious.

Your my sunshine;
First thing I see when I wake.
Your my moonlight;
Rest assured the last thought I take.
Your bigger than the universe,
And brighter than the sun.
More than the stars,
But your my only one.
It takes me past the starry skies,
To look you in your starry eyes.

I hope you have a map,
'Cause I'm lost in those eyes.
Let's travel around the world,
And get lost in the skies.
We can write our names in the sand in Hawaii,
Then vacation to our Pied-?-terre in Versailles.

Just don't be scared,
'Cause I'll take you there.
All in time.

Your my sunshine;
First thing I see when I wake.
Your my moonlight;
Rest assured the last thought I take.
Your bigger than the universe,
And brighter than the sun.
More than the stars,
But your my only one.
It takes me past the starry skies,
To look you in your starry eyes.

Your my sunshine;
First thing I see when I wake.
Your my moonlight,
Rest assured the last thought I take.

Just don't be scared,
'Cause I'll take you there.
All in time,
All in time,
All in time,
All in time.

Your my sunshine;
First thing I see when I wake.
Your my moonlight;
Rest assured the last thought I take.
Your bigger than the universe,
And brighter than the sun.
More than the stars,
But your my only one.
It takes me past the starry skies,
To look you in your starry eyes.
