"Summer Time"

Sometimes I tiptoe by I look for telly love
I understand there's no such plan
Thata fits just like a glove
Feet a little high feel a little shy
You're the reason why I know you
It's summer time with sleepy eyes
I'm sorry, I'm sorry
Gotta dream in mind
Don't worry worry no no no
So dry that tear in the sun burn your skin we just begun
a summer dream
Yes my dear chilling shadows dissapear
Dive on in to this foolish ocean
It's so full of love swim swim with me
I don't wanna dream hold me baby we're going down
