I want take his eyes out
Just for looking at you
Yes I do

I want to take his hands off
Just for touching you
Yes I do

And I want to rip his heart out
Just for hurting you
And I want to break his mind down
Yes I do

And I want to make him
Regret life since the day he met you
Yes I do
And I want to make him
Take back all that he took from you
Yes I do

And I want to rip his heart out
Just for hurting you
And I want to break his mind down
Yes I do
