"Little Friend"

Visit "[Little Friend](#)" on MotoLyrics.com

Manhunt to find your daughter
Buried underneath the water
Now they consult a psychic
Find how much I like it

And now I've found a little friend
It's too fast
This won't last
And to touch
Hurts too much
And now I've found a little friend

And now it's just you and me
Borrow one and we will make three
I say we steal one more
Just like we did once before

And now I thought I told her
That she won't get much older
And now I've found a little friend

And now it makes no difference
Cause I am not quite in yet
And now its on the table
Cause she's perfectly able
And now I've found a little friend
