Cherry stem with her mouth she could tie in a knot  
Favourite trick she does, One in ten that she's got  
Making friends, setting trends, hardly having to try  
All the looks, by the book, best that money can buy

Look what your money bought  
It's all that she's got  
It keeps her company  
Straight from Mom and Daddy

Last chance to dance, out in back of the bar  
Shakin' hands, nice to meet you, I don't know who you  
are  
She has a toke and makes a joke about the alley man  
Never pleased from the treasure in a garbage can

Look what your money bought  
It's all that she's got  
It keeps her company  
Straight from Mom and Daddy

Cherry stem with her mouth she could tie in a knot  
Favourite trick she does, One in ten that she's got  
Making friends, setting trends, hardly having to try  
All the looks, by the book, best that money can buy
