Crafty friends where'd they all go
Try and find but no one ever knows
You fall down makes you wanna stay
Who the hell would want to anyway
Well I'm leaving

And I want it all
Forgot it all
Better find this all
And I found out where it's all at

Better now than I'm before
Tried it once now I want it more
Memories of are cut in half
Tell the truth then I want you to laugh
We're not laughing

And I want it all
Forgot it all
Better find this all
And I found out where it's all at

Knew it all
Whats it like
Sell it all
Whats your price
