You can ride high atop your pony

I know you won't fall...

'cause the whole thing's phoney.

You can fly swingin from your trapeze

Scaring all the people...

but you never scare me

Bella donna...

And we fight...for the northern star

No speed limit...this is the fast lane

It's just the way that it is here

And you say...I never thought it could

Bella donna...we fight...

for the northern star

And the lady's feeling

Like the moon that she loved

Don't you know that the stars are

A part of us

And the lady's feeling

Just like the moon that she loved

And you say...I never thought it could

Bella donna

Come in out of the darkness...

You are in love with...

And I'm ready to sail...

It's just a feeling...

Sort of captures your soul

Bella donna...

And the woman may be awestruck

And the woman may truly care

but the woman is so tired...

So the woman dissappears...

Come in out of the darkness...

Bella donna...my soul...

Don't change...baby please don't change

And you say...

and your face becomes thin

You never thought it could

Come in out of the darkness

Bella donna...

You are in love with

And I'm ready to sail

It's just a feeling
