Desert Angel

I was born in the desert-

So I know how it feels there...

Well look up...it's a shooting star-

But it's as black as night...no stars

Well this is the first thing,

That I've written-

Since I wrote about freedom...

And then the wall came down-

Well we thought it was a great,...beginning

People were free to cross the line-

But then something happened...in the desert

Something broke the stars...into pieces

Well I live below...a great red mountain

In the shape of a great huge beast-

In a place the indians call...Paradise Valley

Well this has always been my sanctuary-

I send that to you...too

There on the other side of the world-

In the desert...

And we are the guardians-

No black clouds...just the faces of you
So where is my father,
Where has he gone...?
Where is my husband-
Where is my son...?
Where is my father,
Where has he gone...?
What is it that happened here,
Is it real...? This war...?
This can't be happening
Ooh well I need to see you
In your...far away war-
And you should know...how much we love you
They call us jere, Operation Desert Angel...
They call us here, Operation Desert Angel...
In waiting...Operation Desert Shield
Operation Desert Storm...Operation Desert Angel
