Can I be of any help to you, baby

She says help me, help her, help him too

Well I made up my mind I won't be calling

I think about you and

I think about the heartbroken ones

It's a real long way to go to say goodbye

I thought we already did that

Have fun tell the world

Well it's a real long way to go to say goodbye

I thought we already did that

Have fun tell the world

High in my life obsessive was my love

Worth it was my time Oh no, you are fading out

Well I can do it

Well I can make it one more time

It's a real long way to go to say goodbye

I thought we already did that

Have fun tell the world

Well it's a real long way to go to say goodbye

I thought we already did that

Have fun tell the world

Can I be of any help to you?

She says help him, help her, help him too, baby

Well I can do it

Well I can make it one more time

Well it's a real long way to go to say goodbye

I thought we already did that

Have fun tell the world

Well it's a real long way to go to say goodbye

I thought we already said that

So have fun tell the world

You were high in my life obsessive was my love

So have fun tell the world

Oh no, you are fading out

Well can you be of any help to me

Can I be of any help to you

I don't think so

Help him help her

Well I can do it

Well I can make it

Well can you be of any help to me

Have fun tell the world

Ooooohhh You were high in my Life
