"Castles In The Sky"

Visit "[Castles In The Sky](#)" on MotoLyrics.com

You're laying next to me
I look into your eyes
But everything I see
Is what I never wanted
So I have to find
A way out of fear
I want you dead
You destroyed my life

[Chorus]
I build not castles in the sky
I know you can't reach them
I don't believe that you can fly
And I'm not the one to teach you
I keep you deep inside my heart
You're the one that makes me sad
I can't stand it anymore
But you never see me cry

I cut you into pieces
Your blood spread on the wall
I hope you rest in peace
Now my work is done!

[Chorus]

[Chorus]
