"Warriors From Outa Space"

Visit "[Warriors From Outa Space](#)" on MotoLyrics.com

We had a motor crash
On our crummy flight
We maked a forced landing
On planet earth
And we were so impressed
By the type of nature
We have never seen
Anything like that
We saw the animals
And we liked the way
How the stronger ones
Dominate the weak

We are the warriors from outa space
We come to save your world
We show you a way to live in peace
There is a future just for you
We are the warriors from outa space
We come to save your world
We kill every human being on earth
And your planet will free again

But then we saw the humans
And the way they live
We saw them fight for power
We saw the bloody warfair
We saw them fight for faith
We saw them fight for money
We saw them rape illusion
And noone cared
And so we have to say
Mankind is realy evil
But one thing we can do
Is to wipe them out
