I walk faster  
But it always catches up to me  
We talk all night  
Never saying anything

I am all that's in my way do you  
Ever feel the same?  
Miracles don't exist in us  
We just wish ourselves away  
Miracles don't exist in us  
We just wish ourselves away

I'm not like this way  
Removed and so ashamed  
I'm not like this way  
Removed and so ashamed

I am all that's in my way do you  
Ever feel the same?  
Miracles don't exist in us  
We just wish ourselves away  
Miracles don't exist in us  
We just wish ourselves away
