This is the day you went away  
Iâ€™m sitting here and watch the sky  
You say I did something wrong  
and you wonâ€™t come back again

I canâ€™t get you out of my head  
I canâ€™t get you out of my head  
I want to know was there nothing inside you?  
I want to know have you ever thought of me?  
I want to know if itâ€™s that what you wanted?  
I want to know if itâ€™s better to be dead?

Let me tell you whatâ€™s on my mind  
I think thatâ€™s not the way to leave  
You know that I canâ€™t let you go  
If I canâ€™t have you, no one else should do
