Oh my God this is our life
We're living like their victims
Living like the captives
Tired of sitting thinking dark thoughts
Contemplating motion
Time to become active

Do you know that your lies
Burn as bright as the bombs
You're dropping on the innocent?

And we've got something good to show you
And you don't wanna miss this
You don't wanna miss this one

How will you answer the questions
How will you defend
The murders you've instructed
We know there are many reasons
People take to killing
Reasons they've constructed

Will you try to deny
All the damage you've done
Or will you try to bow out gracefully
And we've got something good to show you
And you don't wanna miss this
You don't wanna miss this one

You don't wanna be late for the party
Advertisers cash in on all the beauty
The power of all humanity admitting that we got it
wrong
We got it wrong again

And we the people have now spoken
Pack up your belongings
Sail across the ocean
And face all that you have created
In the name of god's love
A thin shield for your hatred

You can never repair
All the damage you've done
But we'll rebuild even stronger

Cause we've got something good to show you
And you don't wanna miss this
You don't wanna miss this one
